- Correct program errors, prepare operating instructions, and compile documentation of program development
- Analyse existing programs or formulate logic for new systems, perform coding, and test/debug programs
- Knowledge of SAP DMS will be advantageous
- Communicate with colleagues and/or customers to ensure understanding of requirements
- Implementation work for high profile projects, with chance of onsite travel to Europe or US

Education:
B.Tech / B.E or comparable degree in any stream from Premier institutes like IITs, NITs, BITS Pilani

Required experience:
- 2+ years of development experience in SAP MDG
- Experience of at least 1 full cycle implementation for an international customer
- Development experience of S/4 Advanced Planning will be advantageous
- Experienced in ABAP/ OO

Technology know-how:
- BRF+ (business rules framework plus)
- FPM (Floor plan manager)
- WebDynpro
- BOPF (Business objects processing framework)
- PPF (Post processing framework)
- SOAP web services

Required soft skills:
- Outstanding communication and presentation skills in English
- Strong analytical / problem solving skills
- Analytical thinking skills and a high level of client orientation
- Ability to translate between non-technical business users and technical IT resources
- Knowledge of German language will be advantageous
- Good organizational and time management skills
- Good team player
